

# You Decide

Willie Nelson

You decide  
What you need  
And then you let me know  
I'll be waiting here until you call

Take your time  
Till you find  
Which way your heart must go  
And when you decide, let me know

Don't you worry if you see me cry  
I would rather have you say goodbye  
Than to be the one that you say you love  
If I can't be the one that you're dreaming of

You decide  
What you want  
And I'll be waiting here  
You already know how much I care

You decide  
And we'll just go from there

Don't you worry if you see me cry  
I would rather have you say goodbye  
Than to be the one that you say you love  
If I can't be the one that you're dreaming of

You decide  
What you want  
I'll be waiting here  
You already know how much I care

You decide  
We'll just go from there  
You decide  
And we'll just go from there
