

You Done Me Wrong

Willie Nelson

Well, you tell me that you care
And now you're gone, you got me crying
No use denying, you done me wrong
If I could look inside your heart
And maybe I would know the reason
Why you are leaving me all alone

Well, you know it's not so
When you say you tried, well, you know you lied
I didn't do one wrong thing to you
Won't you tell me, baby
Why you went and left me lonely?
I miss you only for I love you

Did I ever make you sad
So you'd be mad and love to hurt me
And then desert me for so long
Well, you're telling everyone what you done
You think it's funny
Well, listen honey, you done me wrong

Well, you know it's not so
When you say you tried, well, you know you lied
I didn't do one wrong thing to you
Won't you tell me, baby
Why you went and left me lonely?
I miss you only for I love you

Well, you know it's not so
When you say you tried, well, you know you lied
I didn't do one wrong thing to you
Won't you tell me, baby
Why you went and left me lonely?
I miss you only for I love you
