

# You Made Me Live, Love and Die

Willie Nelson

I cried and cried my heart out  
But what good does it do  
Crying never bothers  
Anyone so cold as you  
I've thought the whole thing over  
And now I'll go  
And find a better place  
Where angels heal  
Broken hearts like mine  
You made me live  
You made me love  
And now you'll make me die

I'll never live or love again  
There's no need now to try  
I'll say farewell to this old world  
This is my last goodbye  
You made me live  
You made me love  
And now you'll make me die

And just for night is over  
I'll never see the day  
I'll hold your picture to my heart  
Then I'll be on my way  
I'll say farewell...
