

Our Town

Willy Mason

Is that a guitar or a machine gun
Don't make me take it away
You know I think you are a bad one
I can tell by your face
Get down on the ground now
Don't make me do this the hard way
Your just a shadow in the back seat now as they drive you away

And couldn't you see this is no place to be at the wrong time
You know your not the only one here looking for some at the wrong time
Its just that look in your eye
your just not quite uptight enough for our town
And now don't try to fight cause we know that we're right in our town
Our town

And its just you behind the bars now
Staring into space
There's time to think about each sound and its affect on your face
Time to move you to the big cell
Your all in this together now
This is where the really big deals go down
Just like the street behind the White House

Its easy to see this is no place to be at the wrong time
And there's a feeling in here that spreads like a disease that its the wrong time
Just got to look our eyes and it will make you uptight in our town
And the more that you fight the more that we know we're right in our town
Our town

Now don't you worry about your dinner son
its just about the last thing on my mind
You know it ain't going to be a pretty one
What did you expect to find
I got some white bread
some cheese spread and some mayonnaise
I got some white bread
some cheese spread and some mayonnaise

The judge can't see you quite yet
This has been a busy week for us
Friday was a big bust
We're just trying to clean these streets up

Couldn't you see this is no place to be at the wrong time
I think you mother never should have let you out at the wrong time
We catch you looking at us and we're gonna bust you up in our town
And you know everybody's gonna watch you go straight down in our town
Our town
