

Immortality

Windir

We are not immortal
We must find the key
The key to your heaven
This key will bring us immortality

We are not immortal
Find the key to your heavens
This key will bring us
Immortality

We have always knew
That you guided us in fight
You have helped us through
Life as the knife
We have always knew
You guided us through fight
You have helped us through
Life as the knife

When we are worried
Our souls will go to heaven
There we will feel our immortality

When we are worried
Our souls will go to heaven
There we will feel our immortality
