

## Left For Dead

### Winds of Plague

You have been left for dead  
This is a mutiny  
You can't deny the fight  
That's still inside of me  
This is a mutiny  
Stand down motherfucker  
You'll never defeat me

You're the captain of a sinking ship  
That fly by night, so die with it  
It was weighing me down  
Now I'm anchor-less, it's sink or swim  
As you drown in shit, wasted away  
No direction lost at sea tides  
Turn we steer the course

This is a mutiny  
Mountainous waters around all  
So deep within a swell  
The walls of water closing in  
Will crash us all into the hell

The sharks are circling  
Limb by limb, they'll tear you apart  
Waves of bad blood fill your lungs  
Return to the deep  
Commit this body to the sea  
Return to the deep  
Commit this body to the sea

You have been left for dead  
This is a mutiny  
You can't deny the fight  
That's still inside of me  
This is a mutiny  
Stand down motherfucker  
You'll never defeat me
