

# Always Within Me

Winger

I didn't know when I said hello  
what my life with you'd become  
I didn't know and I never really understand it  
But every time I see into your eyes  
I see the reasons  
That I'll always come back, come back to you

Like the air that I breath  
Like the land and the sea  
Like the hope like the need  
Your always within me

I didn't know in the time together  
my heart would begin to mend  
I didn't know that i'd fall in love again and again  
I carry you with every step I take  
You are the one

Like the air that I breath  
Like the land and the sea  
Like the hope like the need  
Your always within me

Like the blood in my veins  
Like the fire, like the rain  
Like the air that I breath  
Your always within me

And as long as your heart is willing  
And as long as the sun will shine  
I will always stand by your side

Like the air that I breath  
Like the land and the sea  
Like the hope like the need  
Your always within me

Like the blood in my veins  
Like the fire, like the rain  
Like the air that I breath  
Your always within me  
Your always within me

Like the air that I breath  
Like the land and the sea  
Like the hope like the need  
Your always within me
