

# Can't Take It Back

Winger

Brave face in the final hour  
Gave way to a higher power  
Raise the flag in the city street  
But nothing seems to go the way you planned

You sent the word down from above  
To break the balls of your bully cuz  
But two wrongs ain't making right  
Now we're in so deep that there's no easy way out...

No you can't take it back now  
The whole world has seen how  
You covered all your tracks and  
Wrapped yourself in blood red tape

No doubt people should be free  
Be sure to practice what you preach  
Half good intentions can go either way  
Now we're in so deep that there's no easy way out...

No you can't take it back now  
The whole world has seen how  
You covered all your tracks and  
Wrapped yourself in blood red tape

Guess I'll see you in hell  
Don't you know we're all just the same man?

Can't take it back now  
The whole world has seen how  
You covered all your tracks and  
Wrapped yourself in blood red tape  
Meanwhile you're spinning all the facts  
For you kaleidoscope escape  
Your diplomatic monkey wrench  
Claims it's self defense  
Spare no expense
