

Ever Wonder

Winger

Ever wonder who you are
It's been a mystery from the start
Your soul's a changing change of heart
But now your soul's just torn apart

Face to face with your Judas
You can never take it back

Ever wonder who you are
Ever let it get too far
And do you...
Ever crash when you free-fall
Ever stop to feel it all

And do you wonder...
Do you wonder...

Ever sleep the day away
Life ain't the same, it's turned to grey
Kill what you love, like it's a game
And watch your world go up in flames

Face to face with your Brutus
You can never change the past

Ever wonder who you are
Ever let it get too far
And do you...
Ever crash when you free-fall
Ever stop to feel it all
And do you...
Ever walk beyond these walls
And can you ever mend this great divide

Back to back with your honor
Will you turn and face the truth

Ever wonder who you are
Ever let it get too far
And do you...
Ever crash when you free-fall
Ever stop to feel it all

And do you...

Ever wonder who you are
Ever let it get too far
And will you...
Ever walk beyond these walls
Will you stop to feel it all

And do you wonder...
What do you wonder...

What do you wonder...
