

# Rat Race

Winger

Trapped in this town where the sun never shines  
In a train underground  
we're lost in the tunnel of time  
Day after dat art the sound of the gun  
We fight for positions  
Elbow to elbow we run

Our name and our numbers are scrolled in our backs  
Don't ever look down man  
You'll fall through the cracks

Spinning our wheels in this rat race  
Shifting gears we go round and round  
You know how it feels at this fast pace  
Run for your life you can never slow down

I'm down on my luck  
I'm falling behind  
I was beating the clock but I've run out of,  
run out of time  
I'm weak in the knees,  
my heart's gonna fail  
First man to the future,  
or last man left dead on the trail

There's sweat in my eyes, and blood in my hands  
It's run for your life man,  
As fast as you can

Spinning our wheels in this rat race  
Shifting gears we go round and round  
You know how it feels at this fast pace  
Run for your life you can never slow down

The whole world is turning at break your neck speed  
Can't get what you want man,  
you get what you need

(Run rat run!) Go!  
(Run rat run!)

Spinning our wheels in this rat race  
Shifting gears we go round and round  
You know how it feels at this fast pace  
Run for your life you can never slow down

Spinning our wheels in this rat race  
Shifting gears we go round and round  
You know how it feels at this fast pace  
Run for your life you can never slow down

Go!
