

Under One Condition

Winger

She's looking in the eye
Of a mind made up
That the pain will last forever

And he's headed for a heart
All closed up, will you ever open up?
She said, "Never"

What is the secret
To keeping your head and your promises?

Oh, "I'll mend your broken heart", she said
Under one condition
If I lift you up, you'll never let me down
Darling under one condition

She stares at the sky, wondering why the night
Isn't telling her, believe in him
If he could only read to her the pages of his heart
She could see they feel the same

Learning the secret
To keeping their heads and their promises

Oh, "I'll mend your broken heart", he said
Under one condition
If I let you in, you'll never push me out
Darling under one condition
And this is my one, this is my one condition

He's getting closer and she's getting closer
Just one more question, one more answer
It was all they ever wanted

Oh, "I'll mend your broken heart", she said
Under one condition
If I lift you up, you'll never let me down
Darling under one condition

Hear me say, this is my one condition
That if I let you in, you'll never push me out
Darling under one, darling under one condition
I'll mend your broken heart, but darling under one condition
If I lift you up, you'll never, don't let me down
