

# Without the Night

Winger

Watch the sun go down  
It's just my luck again  
I can hear the sound of your voice  
Haunting me again

But just the sound is not enough  
I try to wait but I'm not that tough  
When I need your love  
It seems like forever

Without the night  
This would be so much easier  
Without the night  
Reminding me of the pain  
Without the night  
I could keep my heart from believing  
I'll be fine without the night

I remember you used to way  
How much you've been through  
Laugh how easy the games we play  
Can break your heart in two

All for love we've given up  
You try to wait but you're not that tough  
Too many times when you need me near  
It seems like forever

Without the night  
This would be so much easier  
Without the night  
Reminding me of the pain  
Without the night  
I could keep my heart from believing  
I'll be fine without the night  
Without the night.

All for love I've given up  
I try to wait but I'm not that tough  
Too many times when I need you here  
It seems like forever

Without the night  
This would be so much easier  
Without the night  
Reminding me of the pain  
Without the night  
I could keep my heart from believing  
I'll be fine without the night

This would be so much easier  
Reminding me of the pain  
Without the night  
Keep my heart from believing  
I'll be fine without the night  
Whoa, I'll be fine without the night.
