

Wild Life

Wings

The word "Wild" applies to the words "You" and "Me"

While taking a walk
thru an African park one day
I saw a sign say "The animals have the right of way"

Wild life, whatever happened to
Wild life, the animals in the zoo?

You're breathing so hot.
A lot of political nonsense in the air.
You're making it hard for the people who live in there.
You're moving so fast,
But, baby, you know not where.

Wild life, (wild life), what's gonna happen to,
Wild life, (wild life), the animals in the zoo?

You'd better stop,
There's animals ev'rywhere,
And man is the top, an animal too,
And, man, you just got to care.

Wild life, (wild life), what's gonna happen to,
Wild life, (wild life), the animals in the zoo?

You're breathing a lot
Of political nonsense in the air.
You're making it hard for the people who live in there.

Wild life, what's gonna happen to
Wild life, the animals in the zoo?
Whatever happened to?
Wildlife.
