

Seven Deadly Sins

Winterborn

Seven deadly sins, all virtues gone

Deliver us from evil, set us free
Together all us bind, temptations of mankind
Devil on our shoulder, leave us be
That wicked thing in our minds we must leave behind

We can't see through the tricks, of 666
Lambs of God, seem so lost

Seven deadly sins, all virtues gone
Decay of men, goes on and on
Seven deadly sins, seven deadly sins

God above looks the other way
The priest, he kneels down and prays, but God doesn't hear what
he says
Is there a shepherd for misguided sheep
The evil does it's deed, sin after sin

Thou shalt not fall from grace, thou shalt not
Paradise seems so lost

Seven deadly sins, all virtues gone
Decay of men, goes on and on
Seven deadly sins, seven deadly sins

Thou shalt not fall from grace, fall from grace
Paradise seems so lost

Seven deadly sins, all virtues gone
Decay of men, goes on and on
Seven deadly sins, seven deadly sins
