

Are you waiting for a miracle?
Are you waiting for a lightning bolt?
Are you waiting like a paranoid little boy?
Are you ever gonna come back home?
Do you really think the sky is falling?
How you ever gonna pick up the pieces?
Do you really think that anybody will listen?
Do you really think that anybody will notice?

I used to dream about saving the world
Now i just dream about the holidays
I used to write so many songs for my girl
Now i just dream about floating away
I think I need a big vacation
I think I need a big vacation
I think I need a big vacation
Out of this place
