

## Fire of Dreams

Winterstorm

For many years  
I travelled in the coldness  
For many years I've been searching for the light  
For many years  
I travelled through the darkness  
To find the answers far behind  
Now I feel  
Swimming in dark waters  
The time has come to free me from my mind  
Take my breath  
Far beyond the dawn's reach  
There's a place a place to hide

Now I can feel that a flame awakes in me  
Out of ashes my new fate revives  
Fire will change all that what is bound to be  
And the blaze brings a new glimpse of life

Fire of dreams burn in my mind  
For long time I was caught of my own pride  
And I will rise above the borders still unknown  
Fire of dreams burn in my hand  
See the shadows flee away into the distant lands  
Too far away to reach

See my mind  
The shadows left behind me  
The thunderstorm will follow by my side  
Travel far  
'Til I reach the wide sea  
I'll reach the border through a stormy ride  
Waves of ice  
Lightning in the dark sky  
The wind blows hard the coldness in my eyes  
The sail resists  
And bring me through this last night  
To come up to the other side of life
