## **Can This Be**

Whose makin' such a deal That's not the way it feels Who are you lookin' for? But you get it so confused That not the way it's used

But how long can this be? How long, can this be? How long can this be? How long, can this be?

When life is one big trail Take it anyway you will But you get it so confused That's not the way it's used...

And how long can this be... How long, can this be? How long, can this be... How long can this be?
