

## Line

## Wipers

There's a thin white line  
That we almost crossed  
Yeah

Did you see the sign?  
They dont want us there..

And society says they don't want us here

You're oh so quiet  
They dont want us there  
Yeah

You just take your time  
You don't understand

And society says they dont want us here

When you're in the fire  
You don't know where to stand  
The world's upset we're in their way

And society says they dont wants us there  
Yeah!

What's wrong, what's right  
By those they say

Theres a thin white line, and it's almost dead

Yeah yeah

And society says they dont need us there

Were in the fire don't know where to stand  
The world's obsessed - we're in their way

And society says that they dont want us here  
Yeah!
