

Losers Revenge

Wipers

Take another shot - from a million miles away
No one puts a spell on my heart
Just remember - remember what they say
I guess you best start
It's best to beware
The losers revenge
Swim with the sharks - sinking out of the way
No one gets their teeth into my heart
I can see that it's not far away
I see a clear spot
It's best to beware
Things never change
It's given me something
The losers revenge
Take your best shot - I'll kick it out of the way
No one puts a hole in my heart
Find another victim to put on display
I guess you best start
Taking it down
These things never change
It's best to beware
Of a loser's revenge
