

## No Doubt About It

Wipers

There's no doubt about it  
It's reaching the end  
You can't bend around it  
It's just too hard to bend

There's no doubt about it  
You're right on the edge  
One slip you've lost it  
Is this really the end?

There's no way around it  
You will always be here  
Watch you leave thru my window  
Is this really the end?
