

On A Roll

Wipers

Johnny's got a problem The only sun That seems to say Maybe I could slip away
Mission star I don't really care If I could get away This funny farm
Isn't funny anyway Maybe I could slip away
On the run

On a roll Come on down Let me dig in your hole(?)

When I fall away The fall was the only way out You know that it's hard not to feel it
When you hit it hard If you take the shame You'll wanna get away This funny farm
Ain't so funny anyway Maybe I could get away
On the run

On a roll Come on down Let me dig in your hole(?)

On a roll Come on down Let me dig in your hole(?)

On a roll Come on down Let me dig in your hole(?)

On a roll Come on down Let me dig in your hole(?)

When you're fallin And you hear them say that there's now way out You know it's hard not to feel it
When you feel the sun Slip pin through your hands Maybe if I could find a way This funny farm
ain't so funny anyway If we find a different way It's time to roll

On a roll Come on down Let me dig in your hole(4x)
