

Rocket

Wipers

There's a whirlwind driving harder entering into inner space
There's been a warning issued out if your afraid of hitting ground
Now what do you say Well there's still enough rocket fuel to
get into orbit So come on away There's been a warning issued out
if your afraid of hitting ground Let's streak away Well there
's still enough rocket power to get us in orbit Let's scream away
Well there's still enough rocket power to get us in orbit Let's
shoot to space
