

Shaken

Wipers

I'm going to lay here shaking and wait for the light
I'm going to lay here shaking the rest of the night
I can now hear what you are saying
There's a change on the making
I'm going to stay here shaking and wait for the light
I'm going to stay here thinking a rescue's in sight
I believe it's coming soon
I think it's here just stay tuned
I'm going to stay here dreaming the rest of the night
I'm going to dream on dreaming that something's in sight
I hope that tomorrows coming
I hope a new day's coming
I'm going to lay here shaking and wait for the light
I'm going to lay here shaking the rest of the night
I'm going to stay here shaking and wait for the light
I'm going to stay here shaking the rest of the night
I hope that tomorrows coming
I hope a new day's coming
