

Silver Sail

Wipers

Sailin around the world in silver ship I wonder what they want
when the chase is missed I wanna run around the world with a si
lver sail

Look at the stars shinin' in empty space... I think I wanted on
e so I went that way I wanna run around the sun in Silver Sail

Someone near the sun is a silver shape I look around for hours
but I can't find a trace I wanna run around the world in a silv
er sail
