

Stay Around

Wipers

Today
Will it change your mind?
You want it all to be spared
Need you now
Will events subside somewhere else
It's really someone else
By my side
Lost it now
Will it take us south?
We'd be stronger there
Need you now
It took me by surprise
Stick around
Stick around here
Stick around
I want to be with you
Yesterday
Really drove me wild
Whispering softly
Reaching out
Reaching out from darkness
Stick around
Stick around here
Stick around
I want to be with you
Stay around
Stay around here
Stay around
I want to be with you
