

Take It Now

Wipers

It came in to my night
I see it taking form
We hear it screaming now
The yearnings raging roar
I didn't ever know - we shouldn't take it slow
I came unto your ground
I've seen it all before
Listen now
I want the shooting star
You didn't ever show me - you couldn't take it slow
You should have told me so
You just stood in smile
You take it now
