

## Bully

### Wisdom In Chains

Hey bully  
You're nothing but a bully  
A bully in blue and you're always scared  
You might fool some with a badge and a gun  
But no one on one  
No you can't fool me

You're not the good guys who serve and protect  
You're just another gang wit your foot on my neck  
You trample our rights to look out for your crew  
But nobody's left to protect us from you

Hey bully  
You're nothing but a bully  
A bully ind blue and you're always scared  
You might fool some with a badge and a gun  
But no one on one  
No you can't fool me  
One on one in the street
