## **Too Far Gone**

## **Wisdom In Chains**

Some people trade life for the bottom of a whiskey bottle. Too far gone, can't get it back now. Some people love the pills. Th ey'll eat an entire bottle. If that don't work, they'll cut the ir wrists off. Some people love whores. They'll spend every fuc king dollar. Go home empty, not an ounce of self-respect. Happin ess must be a dream. I know it ain't material. I've seen men se arch the world but die alone in the end. So fucking alone. No w oman, no wine, no pills can cure this fucking disease. It's in my brain. No matter what I do, I can't get it out my head. Year s of memories flood my brain. I just wanna sever these fucking veins so I can sleep forever never coming back no more. Too far gone. Too far gone. Too far gone can't get it back.
