

Silent Hill

Wisdom

You are alone holding a candle
This night is long, lasts forever
And if you are screaming for someone
Nobody's there, you're the last one

Here inside

Welcome to the nightmare of Silent Hill
Life is more than fantasy
Better look around when the night is near
Something evil's here

Lost in the night, the powers of darkness
Eat you alive don't be mindless
You never know what is behind you
Run for your life, no more time to

Waste and cry

Time is still down in Silent Hill
Silence kills, something evil's here

Welcome to the nightmare of Silent Hill
Life is more than fantasy
Never be alone when the night is near
Something evil is here
