Silent Hill

You are alone holding a candle This night is long, lasts forever And if you are screaming for someone Nobody's there, you're the last one

Here inside

Welcome to the nightmare of Silent Hill Life is more than fantasy Better look around when the night is near Something evil's here

Lost in the night, the powers of darkness Eat you alive don't be mindless You never know what is behind you Run for your life, no more time to

Waste and cry

Time is still down in Silent Hill Silence kills, something evil's here

Welcome to the nightmare of Silent Hill Life is more than fantasy Never be alone when the night is near Something evil is here

Wisdom
