

## Strain Of Madness

Wisdom

Come in here  
Listen to my words  
So much things I need to tell right here  
Come in now  
I am all at sea  
Help me get the better of my fear

In the nights  
I wake up from my sleep  
Suffocation waking in a sweat  
Paranoid  
Voices in my dreams  
Strain of madness overmasters me

Give your hands to me, stay tonight  
Bring me through my dear  
Stay or else I will lose my mind  
And die before my time

More and more  
Overrules my mind  
In the end the evil comes to life  
Strange to say  
The world becomes so plain  
Oh I know I have to meet my fate

Give your hands to me, stay tonight  
Bring me through my dear  
Stay or else I will lose my mind  
And die before my time

Give your hands to me, stay tonight  
Bring me through my dear  
Stay or else I will lose my mind  
And die before my time

Give your hands to me, stay tonight  
Bring me through my dear  
Stay or else I will lose my mind  
And die before my time

Give your hands!
