

# Wander The World

Wisdom

Walking the lonely road  
On the way I've never known  
Close to a dark forest  
Cool wind takes me down to rest

Under the open sky  
Facing the stars

Careless and easy life  
I don't want to leave behind  
And as I fall asleep  
Pray the Lord my soul to keep

Rays of the morning sun  
Chasing the dark  
Wake me and warm me up  
In my heart

Wander the world, come and go  
Sometimes it feels like so long ago  
Wander the world, come and go  
Leaving my way to the Lord

Walking the lonely road  
Places I have never known  
Slowly across the fields  
Through the valleys and the hills

Maybe a day when I  
Get to the end  
I'll have to take my life  
In my hand

Wander the world, come and go  
Sometimes it feels like so long ago  
Wander the world, come and go  
Leaving my way to the Lord
