

Right or Wrong

Wishbone Ash

Like to have you 'round
With all the lies that you make
The things or darkness and you
Some people say, have just a taste
Right or wrong, you might get burned
What you gain is what you learn

Got one too many women
Don't know quite which way to go
They're all gettin' so expensive
When they walk by themselves
Right or wrong, don't regret
What you went for is what you get

No point in bitter tears
When someone else has cut you down
'Cause there's a time for leavin'
And there's a time for stickin' around, hey
Right or wrong, you've got to live
So what you collect is what you give
