Ships in the Sky

Wishbone Ash

Morning morning give me something Open my eyes to a new way Wailing sailing wind of wonder Carry me cross your dividing line

Ships in the sky, I've seen 'em pass by Shining bright in the night Don't look behind you

Do I imagine these footsteps behind me Can't see with this smog in my face Tracy trace your hands they are shaking Tell me what you have seen

Ships in the sky, I've seen 'em pass by Shining bright in the night Don't look behind you
