

# Glorious

## Witch Hammer

1.) I wanna be calling through my pain, I wanna get anywhere for what I'm wishing, well.

I know well what I'm looking for, to be a number one and maybe to let you go.

2.) I like that time when I'm on stage, I want to see your hands and listen to your hails.

So let me introduce my show, take it or leave it if I'm giving you my soul.

In my eyes, you can see open heaven. Going through my fantasy. And my spirit which is full of destinations, I will carry out my dream

R: I know you wanna be crying, you wanna die to be glorious.

Maybe however you won't be looking for anyone.

I know you wanna be crying, you wanna die to be glorious.

Not every one... will be the same.
