

## Dark Wings

## Within Temptation

Why was I one of the chosen ones?  
Until the fight I could not see  
The magic and the strength of my power  
It was beyond my wildest dreams

Dark wings they are descending  
See shadows gathering around  
One by one they are falling  
Every time they try to strike us down

Don't you die on me  
You haven't made your peace  
Live life, breathe, breathe  
Don't you die on me  
You haven't made your peace  
Live life, breathe, breathe

As they took your soul away  
The night turned into the day  
Blinded by your rays of life  
Give us the strength we needed
