

Ive seen how it goes
Youve played this card before
Ive already seen your hand
You deserve the hand youve been dealt
Ill be laughing all the way to the bank
You deserve the hand youve been dealt
Well see who comes out on top in the end
All eyes on the sky
You better sleep with one eye open
It creeps in, in the night
Wake up
Wake up the plagues its coming tonight
Hurry to the door
Shut the windows
Dont say a word
This could be your last night
It creeps in the night
Have the tellers call the cops
Theres a whore on the run
Shes headed our way
Wait for it
I know your dying to hear my side of the story we seem to tangl
e ourselves in
Ill try and clear my lungs
Ill be resuscitated
Ive struggled against the tide
Try to sink this ship
Is that all youve got?
Now believe my story
Sucked to the depths
I lost my crew
I lost it all
