

Dig A Ditch

Within the Ruins

I tried to make this easy
Im feeling pretty crazy
Im just trying to figure it out
I cant keep pretending
Im feeling something different
Separate the day frm the night
We could be the ones to start the fight so give up and give in
I still cannot believe what you did to get away
I still cannot believe your choice
I still cannot believe what you did to get away from me, what y
ou did to get away
She took her last bow and opened to the light
She pulled the knife out of her back
She pulled the knife from her back
Weve been breathing down your neck the whole time
Youve been waiting for the duel of the fates
Catch your breath
Try and catch your breath
Weve been breathing down your neck
One shot to the neck
Try and catch your breath
Straight shot to the neck
Try and catch your breath, breathe
I tried to make this easy
Im feeling pretty crazy
Im just trying to figure it out
Im feeling something different
Youre pushing the envelope again
She pulled the knife out of her back
She pulled the knife from her back
