

## Solace

### Within the Ruins

The luster is now gone (now gone)  
I know where I belong  
A vagabond by nature  
A life only I can endure

I find solace, I find peace  
I find peace in the unforeseen  
And now my satisfaction is achieved

Welcome filth, accept uncertainty  
Comfort in knowing I am not alone  
Passion is shared, hardships endured  
Learn from this, and fucking grow

Grow

Live, eat, breathe, bleed  
Striving to reach the peak  
Sweat, grind, break, bleed  
Satisfaction achieved  
Live, eat, breathe, bleed  
Striving to reach the peak  
Sweat, grind, break, bleed  
Satisfaction achieved

I find solace, I find peace  
I find peace in the unforeseen  
And now my satisfaction is achieved

This is a statement to always try  
This is a statement to never die  
Now I boldly say  
I can never die

Live, eat, breathe, bleed  
Striving to reach the peak  
Sweat, grind, break, bleed  
Striving to reach the peak  
Striving to reach the peak

Fuck the impending  
The condescending  
This is what I live by  
A testament to always try  
Defy, defy, defy (defy)

I can never die  
Never die  
Always strive  
Never deny  
I was built  
To survive
