

Hopes and Dreams

Wiz Khalifa

Long money, hopes and dreams
Eyes be around them niggers wear paper but got your own money
This yo world, buy this drink for you girl
You said tell the dj play this song for me
Here's my number case you ever need company
Better weed tons of drink,... way I dress,... on my ink
Hell yeah, I'm flat, that's why they... me

Got money fall when she make up
I'm giving her all she can take though
And you know we ball but this ain't no game no
I'm spending it all cause that's what we came for
Yeah that's what we came for

Throwing my money when I see you every time she gets low, low, low,
But only cash when I see you nigger she ready to go, go, go, go

Throw it in the air watch that paper fall
Don't know how much I came here with
And other night, she gonna take it all
See them diamonds in my chain
You ain't gotta know my name
Rushing to the bar, we need another round of drinks
Then it's o my car, puff a pound of...
Now we in the stars, and I'ma make it rain
... the same ah,

Got money fall when she make up
I'm giving her all she can take though
And you know we ball but this ain't no game no
I'm spending it all cause that's what we came for
Yeah that's what we came for

Throwing my money when I see you every time she gets low, low, low,
But only cash when I see you nigger she ready to go, go, go, go
And all them... even come in close
But only cash when I see you nigger she ready to go, go, go, go

Pay for your own clothes, fly on your own trips
You a big girl, you buy your own shit
Supply your own smoke, you like your own zip
No... yours, you like to own shit
So rich, the one them niggers hate the bitches wanna go with

I'm bout whose like it's... fortune
Feelin flawless, living loneless, get
Throwing my money when I see you every time she gets low, low, low,
But only cash when I see you nigger she ready to go, go, go, go
And all them... even come in close
But only cash when I see you nigger she ready to go, go, go, go

I'm throwing money up and watching them go round and round
Watching them go round and round
I'm throwing money up and watching they come down, come down
They come down, come down
Oh we can go to my house or we can go to your crib
We can jump in your car, you can see how I live

But I'm still throwing money up
So much I'm losing count and count
So much I'm losing count and count
Yeah I'm counting about.
