Wiz Khalifa

When I ride by, I want you to see what I see
Yeah, yeah, yeah, yeah, yeah
Shit's very clear, uh

Pass me a joint, guarantee Imma hit it
Come to that life, I don't talk it, I live it
I got a old school ass car you can sit in
I got a crib that you probably can't get in
I got a pound, we can grind it and twist it
I been at work on the grind for a minute
Smokin' that loud and still mindin' my business
She f**k with me because I got the vision
Countin' my benjis
Puttin' it all in the bank but I don't really mind if I spend i
t
Can't take it? Don't cross the line when you finish
When you stay all on your grind you can get it
When we be fuckin' I'm climbin' up in it
She f**k with me because I got the vision
Haters be talkin', don't mind 'em, don't listen
Duckin' 'em shots, that's divine intervention
I be so high, try me, come visit
You make a choice, hope you like your decision
Come to my crib, we can spark and get lifted
Go up in smoke just like I'm a magician
Ain't f**k with me then she probably was trippin'
Lightin' 'em up just like we electricians
Get to this money, get high, my intentions
Roll me one up that's as loud as the engine
She f**k with me because I got the vision
I f**k with her, when I'm talkin', she listen
When we together, we stick to the mission
Sparkin' that weed up without no permission
She f**k with me because I got the vision
I f**k with her, when I'm talkin', she listen
When we together, we stick to the mission
Rollin' that weed up without no permission, uh

Oh, oh, money come and money go, we stay the same though
Oh, oh, money come and money go, we stay the same though
