

# No Social Media

Wiz Khalifa

I said let's go, not let's wait

Girl I'm tryna fuck with you with no social media  
Take you to a private place with no social media  
Girl you look so good when you got no social media  
Bring my friends, you bring some too, just no social media

My word is bond, my kush is strong  
My money long, my dick the bomb  
I'm still the same, I'll never change  
I'll still fuck a bitch out a wedding ring on everything  
Dark skin, got a light skin friend poppin'  
In the '62 coupé, ass droppin'  
Baby press silent, we don't need our phones  
And mothafuck a charger, you can leave it home  
Don't keep going on your phone, I'm starting to getting upset  
Cause you wouldn't be shit without the internet  
I don't give a fuck bout how many likes you get  
Fuck a selfie stick, suck a healthy dick, bitch!

Girl I'm tryna fuck with you with no social media  
Take you to a private place with no social media  
Girl you look so good when you got no social media  
Bring my friends, you bring some too just no social media

Jumped out the back of a black Sprinter van  
On Crip cuz, headed to the strip club  
Walked in bad bitches all in my face, want a pick, want some dick  
Want some Henny, have a taste on me  
So G, I ain't fucking with no TMZ  
Get your girls and you follow me, all on me, swallow me  
Slide out, bout to dip, take a trip, plead the fifth  
Ride out, back door, black tint, beat me there, don't meet me there  
You and your girl need to fuck with a G but no social media  
Leave your purse and your phone at the door on the low  
Ain't no social media (tell 'em Wiz)

Girl I'm tryna fuck with you with no social media  
Take you to a private place with no social media  
Girl you look so good when you got no social media  
Bring my friends, you bring some too just no social media
