

## Pain

Wizard

After a long trip fought for my glory  
signed by my blood I came along this village  
to find my eternal freedom

It didn't take a long time  
And I saw you full of beauty  
My feelings told me immediately  
That you are the right woman

Pain that's what love will give you  
Sooner or later it will be regular

I never thought that I can love  
Something more than my sword  
The battle and blood  
But there was you  
I thought about you every day  
Your picture in front of me a dream

It didn't take a long time to  
demonstrate my affection  
and we were falling in love  
we lived our dreams night and day  
But the end was close
