

Nosedive

Wolf Alice

We fail making beats for you to dance to
We fail making rhymes to romance to
We failed on our making it naked alright
We fail making beats for you to dance to
We fail making rhymes to romance to
We failed on our making it naked alright

Nosedive (4x)

I've got a fiver in a pocket somewhere
I can make it to yours on time
I don't care if this takes me no where
I won't, and you wont, we wont ask why

Nosedive (4x)

You play the drums
You play the drums and we'll make the rhymes
figured it out
i figured it all and we'll be alright

Who's there?
Who cares?

Go out and dance
I can dance if you do too
Gimme the five
We have our love and we'll be alright

Who's there?
Who cares?
