

White Leather

Wolf Alice

I bought a drink for you
But you were smoking
with your friends outside and I see
Big things for you
I made plans for you and I.

I scream screams for us
'Cause I have dreams of bigger stuff and in them
Sometimes I'm hot, tell me
when I'm gonna get what I want.

Get... What I want
And forget who I was,
And I'm away.

I saw you pass me by,
Not hello, not even a smile and I said
A silent goodbye, goodbye.

I bought a drink for you
But you were smoking
With your friends outside and I see
Big things for you
On my own, at least for a while
And I'm away.
