

Pieces Of You

Wolf Gang

You run it over
Striaght out the night
You come from nowhere and are caught in my life
I keep talking but there's nothing to say
It is decided that you will have your way

So dance to the beat now honey, yeah
Oh you dance to the beat now hey, yeah
Just dance to the beat now honey, yeah

You whisper something that I cannot hear
There's too much music going on in my ears
My hearts moving up inside of my head
You slam the breaks but I'm already dead

You think that you understand
I've got pieces of you in my hands
And I'm trying to do what I can
With these pieces of you in my hands

So dance to the beat now honey, yeah
Oh you dance to the beat now hey, yeah
Just dance to the beat now honey, yeah

I keep talking
Just keep talking
Just keep talking

You think that you understand
I've got pieces of you in my hands
And I'm trying to do what I can
With these pieces of you in my hands

So dance to the beat now honey, yeah
Oh you dance to the beat now hey, yeah
Just dance to the beat now honey, yeah

Just keep talking
