

Ghost Pressure

Wolf Parade

Maybe I just don't understand
Made me feel like another man
When I kissed you there on Orchard Road
Oh oh

Heard a call from the empty street
An empty room, empty seats
I know they're dancing there invisibly
Oh oh

Little vision come shake me up, shake me up

You said your heart was a swarm of bees
Held your through sot they could never leave
I hear them buzzing there invisibly
Oh oh

And this night was for you and me
Walking through a little mystery
And you just had to know
Oh oh

Little vision come shake me up, shake me up
Ghost Pressure gonna shake me up, shake me up
