

# My Demon

Wolf

And so the night begins to close your eyes  
And your reality will dematerialise  
Just wait, hold your breath  
Sharpen every sense  
Can you believe your fear, he's near

My demon  
See him come in the night  
My demon, receive him  
Now come with the night  
Tonight  
Come, come tonight  
Tonight  
Come, come tonight

We'll make the angels turn away their eyes  
You see my devil seed about to materialise  
I've got you in my hand, surround you like the dark  
Rest assure that I will never let go

My demon  
See him come in the night  
My demon, receive him  
Now come with the night  
Demon, see him come in the night  
Believe him, receive him  
Now come  
Come tonight

And so the night begins to close your eyes  
And your reality will dematerialise  
Just wait, hold your breath  
Sharpen every sense  
Can you believe your fear, he's near

My demon  
See him come in the night  
My demon, receive him  
Now come with the night  
Demon, see him come in the night  
Oh, feel him, believe him  
Now come  
Come tonight  
Now come  
Come tonight  
Tonight  
Come, come, come tonight  
Tonight  
Come, come, come tonight
