

My Demon

Wolf

And so the night begins to close your eyes
And your reality will dematerialise
Just wait, hold your breath
Sharpen every sense
Can you believe your fear, he's near

My demon
See him come in the night
My demon, receive him
Now come with the night
Tonight
Come, come tonight
Tonight
Come, come tonight

We'll make the angels turn away their eyes
You see my devil seed about to materialise
I've got you in my hand, surround you like the dark
Rest assure that I will never let go

My demon
See him come in the night
My demon, receive him
Now come with the night
Demon, see him come in the night
Believe him, receive him
Now come
Come tonight

And so the night begins to close your eyes
And your reality will dematerialise
Just wait, hold your breath
Sharpen every sense
Can you believe your fear, he's near

My demon
See him come in the night
My demon, receive him
Now come with the night
Demon, see him come in the night
Oh, feel him, believe him
Now come
Come tonight
Now come
Come tonight
Tonight
Come, come, come tonight
Tonight
Come, come, come tonight
