

I'm losing my mind, the hunger inside  
Is tearing me apart  
I'm a bottomless pit, no matter how much  
I always crave for more

It's almost there within my reach  
I'm getting closer all the time  
I just got to feed the flames

I don't mind the spots and the stains  
My flag is spangled with blood and brains

Inside of my veins, I'm feeling the pain  
As I take another drink  
I'm over the edge, I'm not coming back  
Beyond the point of no return

It's almost there within my reach  
I'm getting closer all the time  
I just got to feed the flames

I don't mind the spots and the stains  
My flag is spangled with blood and brains

I'm paying the price, but that's what I'm like  
There is no other way  
It's my sacrifice, that I'm gonna pay  
This altar is for you

I don't mind the spots and the stains  
My flag is spangled with blood and brains  
I don't mind the spots and the stains  
My flag is spangled with blood and brains
